

HANDI SUCCESS

Problem

Limited Access for Qualified Individuals with Disabilities to the Job Market and Businesses.

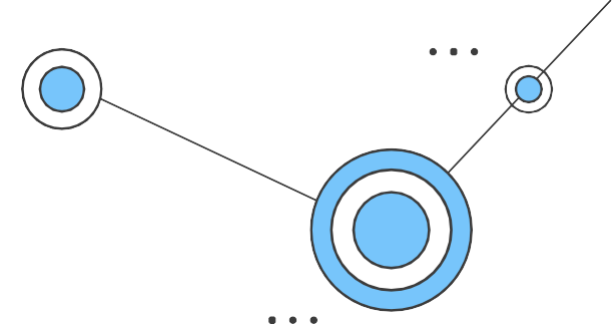

Many workplaces are not accessible and lack the necessary accommodations or assistive technologies for people with disabilities.

Lack of Information and Data on Trained Individuals with Disabilities: The Primary Barrier Preventing Companies from Finding Suitable Profiles.

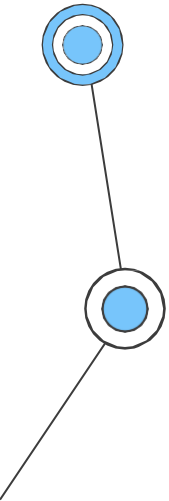

lack of information and accessibility issues regarding products made by people with disabilities.

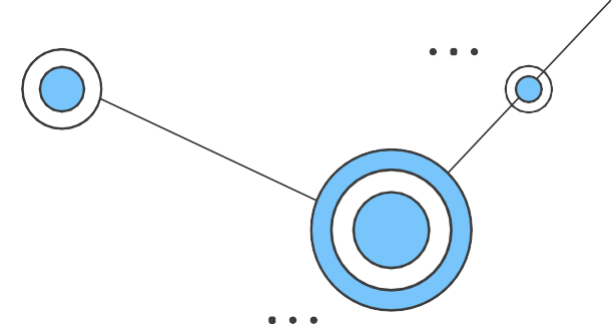

Solution : HANDISUCCESS

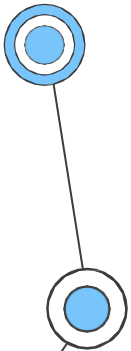

HANDISUCCESS is a startup specialized in supporting companies committed to an inclusion strategy, as well as those subject to Law 41 of 2016, which mandates the recruitment of people with disabilities. Through our three platforms, **HANDITALENTS**, **HANDITRAINING**, and **HANDIARTISAN**, we offer tailored services to help companies integrate people with disabilities into their workforce, while facilitating access to products made by these talented individuals.

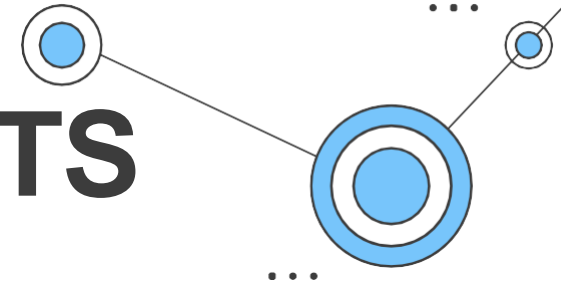

HANDITALENTS

Handitalents.com by **Handisuccess** is an innovative platform that connects **job seekers with disabilities** with employers committed to inclusion and compliant with the law requiring the recruitment of individuals with disabilities. Handitalents aims to create accessible and equitable professional opportunities for everyone by eliminating the obstacles faced by people with disabilities in the job market through a developed online work interface.
